sound screen# -

video and audio generated simultaneously. the piece is available as a standalone application. software generates infinite amounts of ever-changing video and music. designed for LCD HD display, projection [theatre], installation. at this time, interactive versions exist for live performance only.

[N.B. pulsing scan lines are an artifact of videotaping and do not appear in the actual work.]

{youtube}xrTn2qShvkY|600|450|1{/youtube}

watching screen# - ultra sensitive tracking & motion detection controlling feedback fractal generation and harmonic matrices. short algorithmic composition alters symmetry, transposition, tempo, effects, etc.
