first take. only take. no fore-thought. released: 12 historic werewolves, saints unmasked, note bene c-thru disguisz.

2 lovers dancing. let the images be damned. the first vile viel veil drops. o lordy, not one frame of her hips, her sexy moves captured. that ass. he forbade it. laudate! rightly so, sir! in spite of our love, she is yours truly first. fire breathing walking cocks rarely jiggle chix eggs.

my proposal to conduct offence/defence referee pixel fencing while simultaneously bungy-time-jumping to save all your sorry sweet cunt-trees is being considered thoroughly.

take your time sweet lady, take your profane sweet time!
